ManaEZ® Rom Extension Strap Kit

MD

Adjustable ROM Knee Brace

INSTRUCTIONS FOR USE

DESCRIPTION OF SYMBOLS

MD Medical Device

PRODUCT DESCRIPTION

Extension strap kit is designed to increase the length of the strap of the ManaEZ ROM Ice for individuals with legs that have leg circumference that is larger than the standard ManaEZ ROM cuff.

CONTRAINDICATIONS

Always follow contraindications stated in the IFU of the ManaEZ ROM Ice.

WARNINGS/CAUTIONS

Strong supervision when using with children.

REQUIRED COMPONENTS

The ManaEZ ROM Ice consists of the wrap around body design with two circumferential straps.

- Aluminum uprights and range of motion hinges
- Removable Air bladder system and gel pads

CLEANING AND CARE

Hand wash with mild detergent and let it air dry. Do not machine wash or dry.

DISPOSAL

The device and packaging must be disposed of in accordance with respective local or national environmental regulations.

LIABILITY

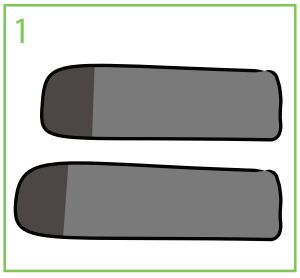
ManaMed does not assume liability for the following:

- Device not maintained as instructed by the Instructions For Use.
- Device assembled with components from other manufacturers.
- Device used outside of recommended use condition, application, or environment.

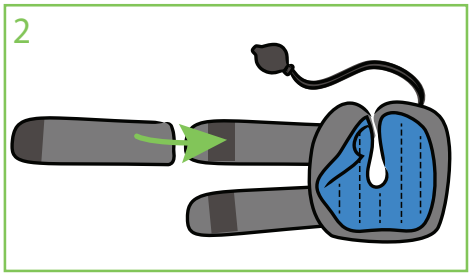
SYMBOL GLOSSARY

For an explanation of symbols, please refer to https://www.manamed.com/glossary/symbol-glossary.pdf

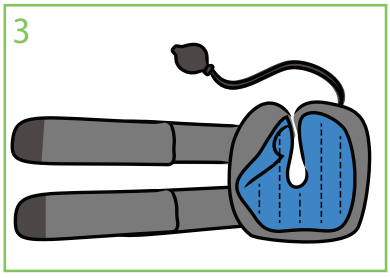
FITTING INSTRUCTIONS



Check the parts. Two straps; one longer than the other. Long strap attaches to the thigh strap. The short strap will attach to the calf strap.



To attach the extension strap to the ManaEZ ROM brace, lay the extension strap end without Velcro so the hook on the brace strap can attach to the extension strap. Repeat process for both straps.



Apply brace to leg following IFU of ManaEZ ROM brace.
